„...and the moon dances Samba – Brazilian songs and other dreams“

A gleam of blue light , warm sounds, timeless rhythm as old as the moon.

A smooth and gentle voice, a playful guitar, thoughts and dreams about Brazil.

And a night full of magic and passion begins.

In their current programme both, singer Katharina Ahlrichs and guitarist Silvio Schneider capture exactly this atmosphere:

Alternating between groovy and electrifying pieces of music and songs mysterious and full of magic they seduce their audience with Brazilian Bossa Nova, Samba, improvisation and original composition.

Their music is inspired by the ocean, the sun and above all: the moon. Her glittering gleam interfuses the whole show in all its various forms and moods.

The audience enjoys an exitingly romantic evening filled with songs that manage to stir something deep inside of us, songs that move us, touch our souls and seduce us.

A phantasmagorical experience – like shimmering reflections of moonlight on the ocean's smooth surface.
